

Project success story

Windows 10 and Office 365 migration

Industry

Government administration

Employee

10,000+ employees

This NSW government organisation was looking for a Windows 10 and Office 365 migration that would benefit their workforce with flexibility and reliability.

Challenges

- ✓ Project coordination and collaboration was inefficient
- ✓ Application packaging was inefficient leading to delayed delivery to customers
- ✓ There was a lack in technical support when it came to application assessment, build and deployment
- ✓ Files were predominantly on-prem without current tools, restricting mobility and flexibility

Benefits

- ✓ Migration to Office 365 means that files are now online and easily accessible to staff, enabling enterprise mobility
- ✓ Office 365 suite has helped improve the efficiency of projects thanks to collaborative tools
- ✓ Initial setup and deployment has enabled staff to continue running migration processes internally without external expertise or support
- ✓ Reduced costs through automation of processes such as application packaging

Solutions

- ✓ Offered strategic direction and technical expertise to deliver what was required in a very short time frame
- ✓ Provided technical support from assessment through to build
- ✓ An efficient Office 365 migration from redirected folders or offline files that is easy for the business to manage themselves
- ✓ Successful deployment with hands-on staff that had the technical ability to resolve all issues at hand
